Rock Slider Kit for the 2 Door JL Jeep Wrangler

J0055045 \$680.99

For the 2 Door Jeep JK Wrangler. Made in the USA. See Features in J0054398 description below.

Rock Slider Kit for the 4 Door JLU Jeep Wrangler

J0054398 \$897.99

Ace Rock Sliders are made with beefy 2" tubing with 0.134" thick walls, giving you series protection with your Ace Rock Sliders. Special angles in the design keeps you from getting hunt-up when the trail gets dicey. For the ultimate protection for extreme off-roading, we recommend pairing our Rock Sliders with factory Rubi-Rails or our Ace Rocker Guards, however they do work great by themselves as well.

Sold in Pairs. Made in the USA. Powder Coated Texturized Black.

With an aggressively styled Ace Pro Series Rear Bumper and Tire Carrier, you'll have the ultimate protection for the rear of your Jeep Wrangler JL or JLU. This rock-solid carrier holds your oversize spare tire and still allows for single-handed gate operation. Plus, with our optional integrated 6" LED light provisions, you'll have plenty of light no matter how dark the trail gets.

This slim-designed Pro Series Bumper is made of 1/4" thick steel plate and is contoured tightly to allow for extreme departure angles. Mounting inside the factory frame for maximum clearance, our design actually gains some clearance from the stock receiver.

The Tire Carrier consists of a spindle housing that's welded and supported from the top and bottom plate of the bumper. The 2" diameter, 0.134" wall CNC machined spindle housing utilizes oil-impregnated bronze bearings and includes a grease zerk provision.

The carrier comes with our Spare Tire Plate Relocate that features a 3rd brake light, courtesy light and factory camera mount. The kit also includes a telescopic tire mount stanchion used to mount your tire tightly to the carrier regardless of tire width, plus a rear gate mounting plate that couples the tire carrier to the gate via heim joint. The carrier is rated for up to a 38" tire, is conveniently designed for effortless single-handed operation, and has an integrated CB antenna mount.

Made in the USA, our kit is black texture powder coated, includes zinc-coated mounting hardware, and integral D-Ring Shackle mounts already built in. The receiver retains the factory tow rating. Installation uses existing mounting holes. Our mount extends inside the frame rail, making the attachment much stronger. LED Lights not included.

The image displays four orthographic views of a mechanical component, likely a bracket or a small frame. The top view shows a rectangular shape with rounded corners and a central rectangular cutout. The bottom view is similar but with different internal features. The front and back views show the profile of the part, highlighting its thickness and the placement of mounting holes along the edges.
